

K'NEX Roller Coaster Building Sets

Experience the thrill of building your own toy roller coaster and create the ultimate amusement park with Thrill Rides from K'NEX. Build massive, moving, and motorized roller coaster toys, Ferris wheels and more for hours of heart-pounding fun!

These roller coaster building sets come packed with everything you need to build your own amusement park ride models. Children can create the amusement park of their dreams! Using the hundreds of K'NEX rods and connectors included in the kit, kids can build bigger models that have the ability to move. With so many different launching mechanisms, each roller coaster toy kit is unique in model, creation, and movement.

Also, building with each K'NEX Thrill Rides kit supports key areas of a child's developmental growth. As children click the K'NEX parts and pieces together and discover how the building system works, they are strengthening their hand-eye coordination, fine motor skills, problem-solving skills, spatial awareness while also exercising their imagination. Additionally, with these roller coaster toys, children are learning about key physics concepts, all while having fun with this build-your-own adventure!
