

Junior Mechanics Kit

An experiment kit leading children to the fascinating world of mechanical physics.

This kit allows four similar models to be built at the same time.

Learn about Physics and Technology in a fun and exciting way.

Discover appropriate technical language and terminology.

With a detailed guide which include 6 lessons and 21 task sheets.

Including a detailed colourful instruction manual, 27 experiments can be made to discover basic concepts of mechanical physics.

All schools in Wales who request a STEM Ambassador can borrow the Junior Mechanics Kit from their local STEM Ambassador Hub – See-Science – free of charge. Contact enquiries@see-science.co.uk.
